

Kaivalya Patil

Data Analyst | Pune, India | +91 9049776225 | patilkevi6225@gmail.com | [LinkedIn](#)

Actively seeking full-time Data Analyst opportunities to leverage skills in Python, SQL and Business Intelligence for data analysis, dashboard development and business insights.

Professional Summary

- Data Analyst with strong skills in **Python, SQL, Power BI** and **Tableau** for data analysis and reporting.
 - Experience working with **real-world datasets during internship and projects**.
 - Strong ability in **data cleaning, transformation, dashboard creation and insight generation**.
 - Passionate about converting raw data into **actionable business insights**.
-

Technical Skills

- **Programming:** Python, SQL
 - **Data Analysis:** Pandas, NumPy
 - **Data Visualization:** Power BI, Tableau, Matplotlib, Seaborn
 - **Frameworks:** Flask, Django, Django REST Framework
 - **Databases:** MySQL
 - **Tools:** Git, Jupyter Notebook, PyCharm, VS Code
 - **Core Competencies:** Data Cleaning, Data Modeling, Dashboard Development, Problem Solving
-

Projects

E-Commerce Sales Dashboard (Power BI)

- Built interactive Power BI dashboard tracking Sales, Profit, Quantity, and Profit Margin KPIs.
- Applied advanced DAX calculations including YTD, PYTD, YoY Growth %, and Product Ranking.
- Established relational data model integrating Orders, Customers, and Geo datasets.
- Delivered product performance insights including Top 5 and Bottom 5 product analysis.
- Provided regional and state-level sales insights using geo mapping visualizations.
- Enabled business teams to monitor performance trends and identify revenue opportunities.
- Technologies: Power BI, DAX, Excel, Data Modeling, Data Visualization

Loan Prediction System

- Built Flask web application for loan eligibility prediction using ML models.
- Processed real-time user input data and produced prediction outputs instantly.
- Technologies: Python, Pandas, Flask, Scikit-learn, HTML/CSS.

Professional Experience

Data Analyst Intern – Creazione Software, Pune

Jun 2024 – May 2025

- Analyzed and processed **business datasets using Python and SQL** to extract insights and support reporting.
- Performed **data cleaning and transformation using Pandas**, ensuring high-quality datasets for analysis.
- Developed **interactive Power BI dashboards** to track key business **KPIs and performance metrics**.
- Wrote **SQL queries in MySQL** to retrieve, analyze and prepare data for dashboards and decision-making.

Intern | Python with Machine Learning – BrightGeeks Technologies Pvt. Ltd., Bengaluru

05 Jan 2024 – 05 May 2024

- Developed and tested **machine learning models** for data analysis and prediction tasks.
- Performed **data collection, cleaning, and preprocessing** using Python libraries such as **Pandas and NumPy**.
- Conducted **exploratory data analysis (EDA)** and created visualizations using **Matplotlib and Seaborn**.
- Evaluated model performance and collaborated with the team to improve **ML workflows and reporting**.

Education

B.Tech – Artificial Intelligence & Machine Learning

Sanjay Ghodawat University, Kolhapur | 2025 | CGPA: 6.52

Diploma – Computer Science

Dr. D. Y. Patil Polytechnic, Kolhapur | 2021 | 79.60%

Certifications
